INFOTECH
PVT LTD

Our Strategic Aims

Wyenfes is driven by a clear vision to empower businesses through focused goals, accelerated growth, and relentless innovation into every interaction.

Our vision is to create a world where daily transactions lead to a more secure and fulfilling life.

At Wyenfes, we envision a future where every purchase contributes to financial stability. By embedding income-generating opportunities into everyday transactions, we aim to enhance overall well-being and foster economic resilience.

Our commitment extends beyond products and services. We strive to build a holistic ecosystem that prioritizes convenience, accessibility, and empowerment, ensuring that everyone can achieve a more secure and fulfilling life.

Core Pillars of Our Vision

Financial Empowerment

We enable individuals to generate income through every purchase, creating a cycle of financial growth and stability.

Convenience

Our solutions simplify daily tasks, making life easier with seamless, user-friendly experiences.

Innovation

We leverage cutting-edge technologies to deliver transformative solutions that redefine possibilities.

How We Achieve It

Our vision is brought to life through strategic initiatives and innovative approaches:

Smart Technology

We use AI, blockchain, and IoT to create intelligent platforms that integrate income generation into transactions.

User-Centric Design

Our solutions prioritize ease of use, ensuring accessibility for all users, from individuals to businesses.

Sustainable Practices

We promote eco-friendly and ethical solutions to support long-term well-being and community growth.

Global Reach

We aim to scale our vision worldwide, empowering communities across borders with financial opportunities.

Internship Training Program

Launch Your Tech & Design Career with Hands-On Experience!

Get trained by industry experts. Work on real-world projects.
Boost your resume and career

Duration: 1 year

6 Months Internship & 6 Months Training

And We Provide 1 Year Work Experience Certificate

INTERNSHIP IN :

FLUTTER DEVELOPER

MERN STACK & FULL STACK

UI/UX DESIGN

GRAPHIC DESIGN

Full Stack Web Development Internship Training Program

Master the Art of Building Complete Web Applications

The Full Stack Web Development Internship Training Program is designed to equip you with comprehensive web development skills. From intuitive front-end design to robust back-end architecture, you'll gain expertise in HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB.

This program includes real-time projects, agile development practices, and collaborative workflows. You'll build deployable applications and gain exposure to modern tech stacks. A 1-year work experience certificate adds significant value to your career profile.

mongoDB

- HTML5, CSS3, and JavaScript (ES6+)
- Responsive Web Design (Flexbox & Grid)
- DOM Manipulation and Event Handling
- React.js (Hooks, Context API, Routing)
- Backend with Node.js and Express.js
- MongoDB & Mongoose for Database Management
- RESTful API Development & Integration
- User Authentication & Authorization (JWT)
- Error Handling & Input Validation
- Git, GitHub, and Version Control

MERN Stack Development

Internship Training Program

Master the Art of Building Complete Web Applications

The MERN Stack Internship Training Program is focused on the popular MongoDB, Express, React, and Node.js technologies. It provides in-depth training on building full-fledged web applications with dynamic user interfaces and powerful backend logic.

Through hands-on projects and API development, this program ensures you are job-ready. Agile collaboration and version control tools are integrated into the workflow. You'll receive a 1-year work experience certificate upon completion.

- Modern JavaScript (ES6+)
- React.js Fundamentals & Hooks
- Component-Based Architecture
- Node.js & Express Server Setup
- MongoDB CRUD Operations
- RESTful API Design & Integration
- Authentication (JWT, OAuth)
- Middleware & Routing
- File Uploads & Form Handling
- Version Control with Git & GitHub
- Deployment (Render, Vercel, or Heroku)
- Error Handling & Debugging

Flutter App Development Internship Training Program

Create High-Performance Mobile Apps with Flutter & Dart

This internship training program guides you through the mobile app development journey using Flutter. You'll learn to create seamless apps for both Android and iOS, working with Firebase, APIs, and responsive UI components.

Real-world projects and mentoring help you master state management, app deployment, and UI/UX design. You'll graduate with practical experience and a 1-year work experience certificate.

- Dart Programming Fundamentals
- Flutter Widgets & UI Components
- Navigation & Routing
- State Management (Provider, Riverpod, Bloc)
- Working with RESTful APIs
- Firebase Authentication & Firestore Integration
- Local Database (Hive, SQLite)
- Form Validation & User Input Handling

You'll also gain hands-on experience with building custom themes, integrating third-party packages, implementing responsive design for multiple screen sizes, and optimizing app performance. The program incorporates collaborative project sprints, code reviews, and real-time feedback sessions to simulate real-world team workflows. Real-world projects and mentoring help you master state management, app deployment, and UI/UX design. You'll graduate with practical experience and a 1-year work experience certificate.

UI/UX Design

Internship Training Program

Design Intuitive, User-Friendly Digital Products

Learn how to design beautiful and functional user interfaces with this UI/UX Design internship training. From user research to prototyping, this program teaches you how to deliver engaging digital experiences using tools like Figma and Adobe XD.

You'll complete design projects, practice user testing, and build a professional portfolio. A 1-year work experience certificate validates your hands-on design skills.

Principles of UI/UX Design

User Research & Empathy Mapping

Information Architecture

Wireframing (Low-Fidelity & High-Fidelity)

Interactive Prototyping (Figma, Adobe XD)

Typography, Color Theory & Visual Hierarchy

Responsive Web & Mobile Design

Design Systems & Component Libraries

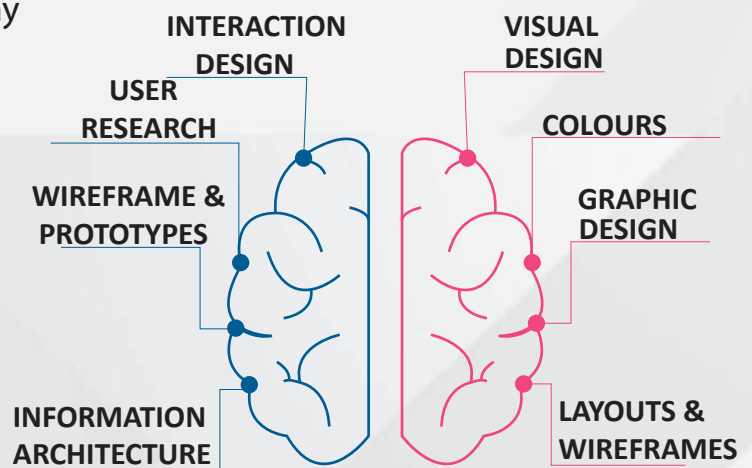

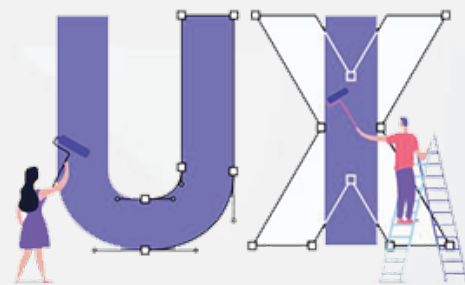

UX Writing & Microinteractions

User Testing & Feedback Analysis

Accessibility & Inclusive Design

Handoff to Developers (Design-to-Code)

Portfolio Case Studies & Presentation Skills

Graphic Design

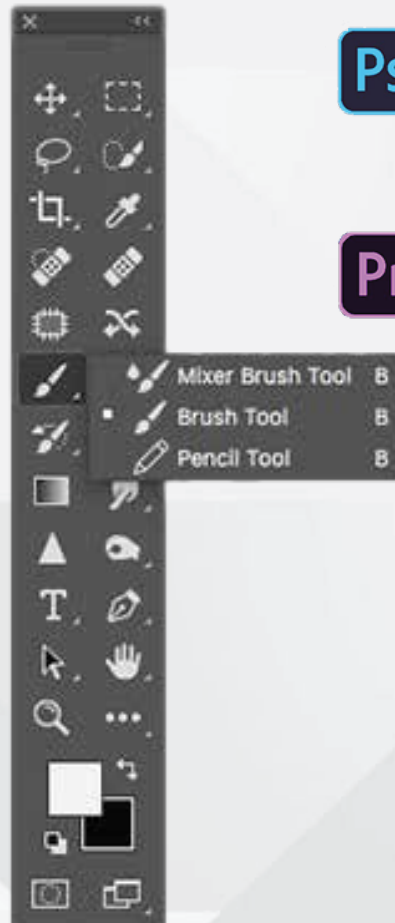

Internship Training Program

Master the Essentials of Visual Communication & Branding

This Graphic Design internship training focuses on visual creativity and software mastery. Learn Adobe Photoshop, Illustrator, and Canva to create branding assets, marketing materials, and digital graphics.

The program includes real-time design tasks, creative challenges, and portfolio projects. Earn a 1-year work experience certificate to boost your design credibility.

- Fundamentals of Graphic Design
- Color Theory, Typography & Layout Principles
- Logo Design & Brand Identity
- Social Media Post Design
- Banner, Poster & Flyer Creation
- Product Packaging & Label Design
- Business Cards & Stationery Design
- Brochure & Magazine Layouts
- Photo Editing & Retouching (Photoshop)
- Vector Illustration (Illustrator)
- Print vs Digital Media Design
- Design Portfolio Development

ABOUT FLUTTER

Flutter is an open-source UI software development framework created by Google that allows you to build cross-platform mobile, web, desktop, and embedded apps using a single codebase. It uses the Dart programming language and provides a fast, expressive, and modern way to build interactive UIs.

Flutter uses the **Dart programming language**, which is fast, expressive, and easy to learn. With its rich set of pre-built widgets and tools, developers can build apps faster and with more flexibility than traditional native frameworks.

Flutter is widely adopted by developers and companies because of its **performance, flexibility**, and ability to deliver a **native-like experience** on multiple platforms — all without rewriting the code for each system.

Cross-Platform Development

Flutter's unique approach allows developers to write a **single codebase** that runs seamlessly on **both Android and iOS platforms**. This dramatically reduces development time, costs, and effort, making it an ideal choice for startups, enterprises, and solo developers.

Faster Time to Market – No need to build separate apps for each platform

Consistent UI/UX – Maintain uniform designs across all devices

Lower Maintenance Costs – Fix bugs and update features in one place

Native-like Performance – Compiles to native code for smooth user experience

Single Development Team – No need to hire separate iOS and Android developers

Interview Training

1. Technical Mastery
2. Behavioral Rounds
3. Problem-Solving Practice
4. Expert Mock Interviews

Ace Your Coding Tests

1. Real-Time Coding Practice
2. Brain-Boosting Puzzles

Project & Assignment Presentation Skills

1. Project Demo Training
2. Analytical Thinking & Verbal Clarity
3. Real-Time Presentation Practice

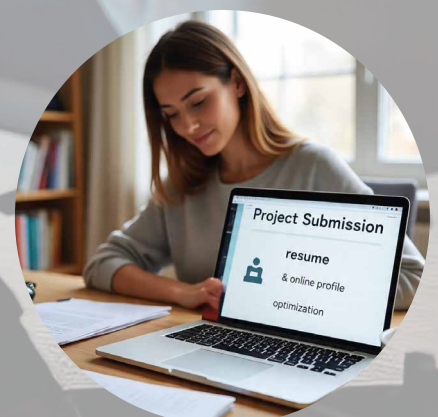

Resume & Online Profile Optimization

1. Resume Polishing
2. LinkedIn & GitHub Enhancement
3. Professional Visibility

Stand Out with a Video Resume

1. Personalized Video Resume Training
2. Improve Confidence on Camera

From Training to Hiring Desk

1. Interview Opportunities with Trusted Partners
2. Talent Promotion
3. End-to-End Placement Guidance

Level Up Your Job Conversations

1. Master the Art of Negotiation
2. Build Employer Relationships
3. From Offer to Opportunity

Level Up Your Job Conversations

The following section presents a detailed curriculum outline for each stream offered in our 1-Year Internship Training Program. Designed to simulate real workplace experience, this curriculum takes learners through a progressive journey — from core fundamentals to advanced technical execution.

Each track is structured to ensure hands-on learning and project-based application, covering:

Foundational principles relevant to the chosen domain

Practical tools, technologies, and frameworks used in the industry

Problem-solving, development workflows, and real-time collaboration

Advanced techniques and deployment strategies

Portfolio-building assignments and final project presentations

This comprehensive training equips participants with job-ready skills, real project experience, and the confidence to contribute to professional teams — all backed by a 1-Year Work Experience Certificate.
